Kathleen Mundy speaks **M.O.N.E.Y.**

A diminutive dynamo, a savvy businesswoman, an energizing and enthusiastic speaker – Kathleen Mundy has been termed all of these things and wears them proudly.

Going from a successful career in real estate, to being an unemployed single mother, to an unsurpassed entrepreneur, business coach and mentor, Kathleen's is a riches to rags to riches story.

She has built her own empire of franchises, growing her Little Caesars business from one store to five in five years. This experience gave her the will and ability to start a new venture: **Making Your Own Money**, in which she endeavours to help other entrepreneurs manifest and grow their own dreams of business success.

Now at the top of her own game, Kathleen speaks to audiences to share her dynamic message of empowerment. She not only speaks from experience to inspire her audience, Kathleen gives them information that they can take away to use in their day-to-day functions in their own enterprises.

As they listen to Kathleen share her passion for her **5-Step M.O.N.E.Y. System**, audience members get plenty of take-aways, whether they are newbie start-ups, middle managers trying to get ahead, or successful entrepreneurs looking to take their businesses to the next level. Though she's all business, the presentation is entertaining and energizing, making the time fly as the audience learns and laughs with her.

- **M – Marketing: keys to building client relationships**
- **O – Operations: streamlining processes so you can work less**
- **N – Numbers: improving financial literacy**
- **E – Evaluate: tracking progress**
- **Y – You: having the CEO mindset and thought processes**

Captivating audiences of six to 600, Kathleen has spoken to and provided private training to professional groups across the table. Financial institutions such as TD Bank were provided guidance and understanding to better build stronger, deeper relationships for business banking clients and managers. Business leaders, of the Sarnia Chamber of Commerce, have laughed and learned with Kathleen where she shares the method on how to work for a healthier bottom line and managing all the things that make your life more enjoyable. Female audiences are often her most enthusiastic, as evidenced by her appearance at one of London's premier events - the Mompreneurs' Ignite Your Vision conference as well as the National Mompreneurs' conference in Toronto – and speaking to the Women's Interval Home where she shared her inspirational message of climbing up after being knocked down.

Kathleen has been featured in the media. Look out for the Women in Business Series on Rogers Cable in the Fall of 2014. Click [HERE](#) for interviews and stories in which Kathleen is featured.

Having coauthored her first book, *Reading Between the Wines*, and her second, *Succeeding Against All Odds*, Kathleen also speaks on work-life balance and getting true ROI (Return on Investment), which is ROT (Return on Time).

**Contact Kathleen** to speak to your group of entrepreneurs, franchisees, business leaders or anyone who wants to be enlightened while they are being entertained.
